STEP BY STEP

1 Trace template or pattern onto transparent paper, cut on marking line.

2 Spray back of paper with 808 Reactivating Adhesive and position on back of appliqué fabric—use transparency for precise placement. Iron to affix.

3 Cut appliqué pieces with 1/8" or 1/4" seam allowance (according to size of appliqué piece).

4 Spray 808 Reactivating Adhesive on back of appliqué piece. Using tip of iron, turn under and affix seam allowance.

5 Position appliqué piece on base fabric and iron to set in place. Appliqué piece with matching thread to base fabric.

6 To remove paper, carefully make incision on back of base fabric and with a needle pull out the paper.
